Two observed ten-point S forms

Native crops are enlarged independently. Default and alternate outlines use one common font scale.

Handy narrow S

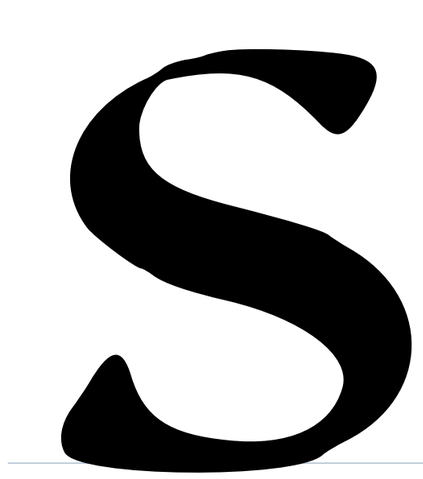

Poster broad S, selected

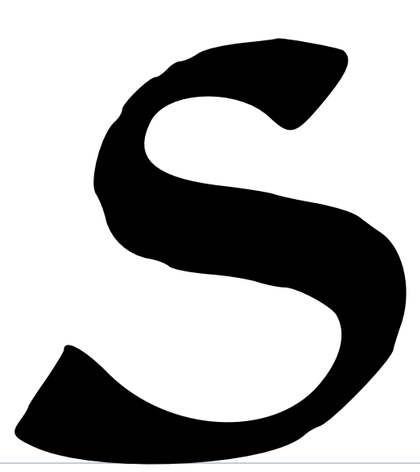

Handy co-set broad S

Default

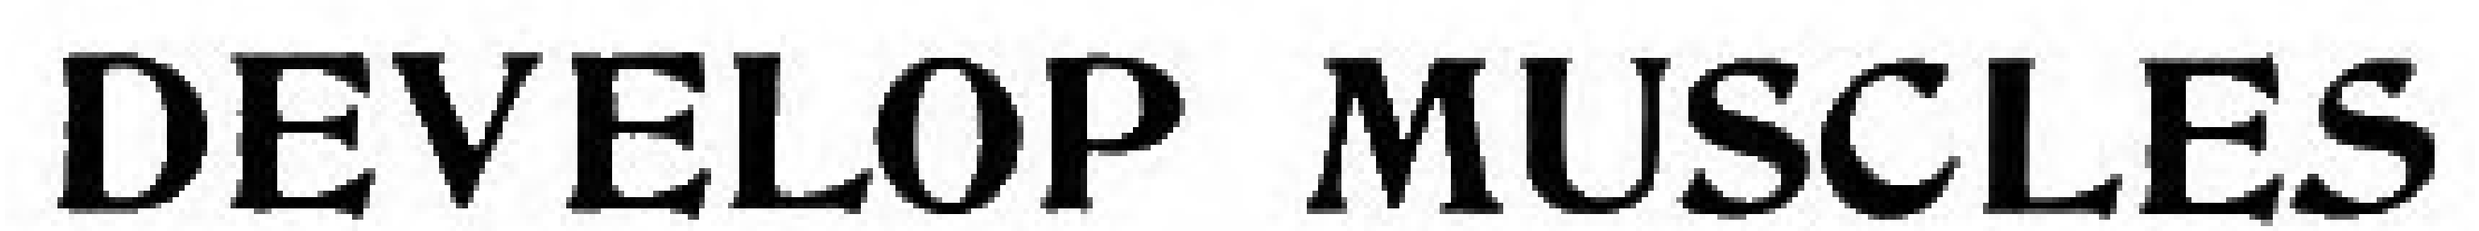

ss04 / S.broad

Handy printed page 189 / archive 208; selected poster: printed page 339 / archive 358.

Both forms are co-set in MUSCLES on page 189. The narrow default is preserved.

Eleven non-S poster capitals: 25.9377641 units/native pixel. Eight serif feet: no common rotation.

Maximum baseline residual: 1 native pixel. S.broad ink: -1.86 to 706.62; advance: 722.

Threshold 110, no hole filling or drawn repair. Modern 35-unit sidebearings; source edge variation retained.

72 pt / ss04

36 pt / ss04

24 pt / ss04

10 pt / ss04

Desktop and web outline comparison

Narrow default and broad alternate share the same 200-point scale and baseline.
