Two observed eight-point S forms

Native crops are enlarged independently. Default and alternate outlines use one common font scale.

BYU narrow S

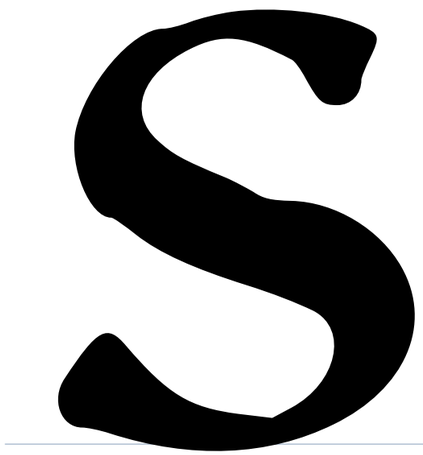

BYU broad S, selected

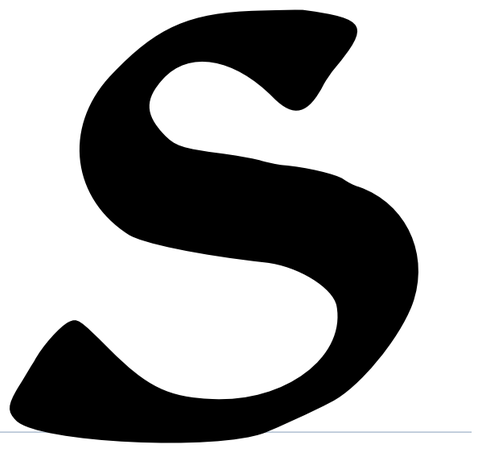

GPO default source

Default

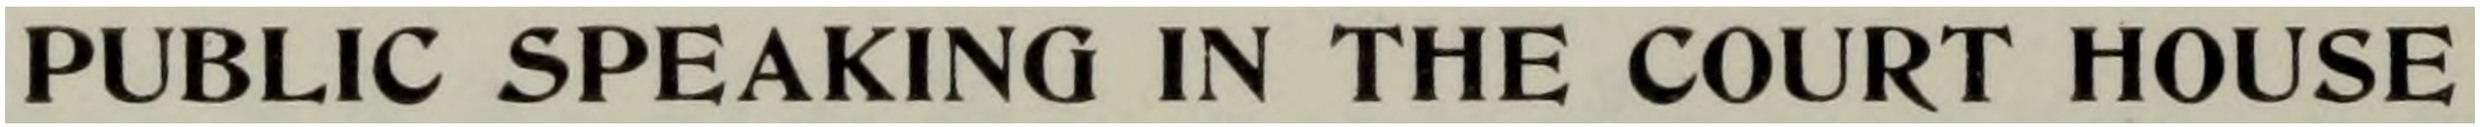

ss04 / S.broad

BYU printed page 598 / archive 600; GPO Document printed page 30 / archive 65.

The same heading has broad S in SPEAKING and narrow S in HOUSE. The narrow default is preserved.

Eleven non-U/S/M capitals: 13.4163876 units/native pixel. Fifteen serif feet: no common rotation.

Maximum baseline residual: 2 native pixels. S.broad ink: -17.98 to 702.49; advance: 750.

Threshold 150, no hole filling or drawn repair. Modern 35-unit sidebearings; source edge variation retained.

72 pt / ss04

36 pt / ss04

24 pt / ss04

12 pt / ss04

8 pt / ss04

Desktop and web outline comparison

Narrow default and broad alternate share the same 200-point scale and baseline.
