Two observed twelve-point S forms

Native crops are enlarged independently. Default and alternate outlines use one common font scale.

BYU narrow S	BYU broad S, selected	Handy broad repeat	Default	ss04 / S.broad
				

BYU printed page 598 / archive 600; Handy printed page 339 / archive 358.

Both BYU forms are co-set in EXECUTOR’S SALE. The current narrow default is preserved.

Eleven non-S capitals: 8.7829378 units/native pixel. Seven serif feet: 0.0617411-degree rigid rotation.

Maximum baseline residual: 0.914 native pixel. S.broad ink: -12.23 to 701.69; advance: 730.

Threshold 150, no hole filling or drawn repair. Modern 35-unit sidebearings; source edge variation retained.
